EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph Felber on December 13, 2005.

The application has been amended as follows:

Claim 1, line 18, after "runner" insert:

"so that the deformation attitude of the resilient member is changed freely, and a limiting means is provided between constant value thereby preventing the excessive resilient deformation of the resilient member, when the clutch piston is urged toward the turbine runner while producing the deformation of the resilient member thereby bringing the friction engaging means into a non-operative state"

The following is an examiner's statement of reasons for allowance:

Claim 1 recites the combination of a fluid transmitting system with a lock-up clutch, an impeller, a turbine, a side cover, a clutch chamber, a clutch piston, means for generating a difference in pressure, friction engaging means, a resilient member, a limiting means, and an annular slip-off preventing portion. Claim 5 recites the combination of a fluid transmitting system with a lock-up clutch, an impeller, a turbine, a side cover, a clutch chamber, a clutch piston, means for generating a difference in pressure, friction engaging means, a resilient member, a shell mounting flange, a tip

end, and limiting means. Of particular patentable significance is the provision that the deformation attitude of the resilient member is change freely or unbound, limiting means, the inclusion of an annular slip-off preventing means (claim 1) and a tip for abutting a bottom surface of the annular recess (claim 5). Therefore, the resulting combinations are not shown or taught by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Saúl J. Rodríguez whose telephone number is (571) 272-7097. The examiner can normally be reached on M-F 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles A. Marmor can be reached on (571) 272-7095. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
